

## Strategic Plan 2023 - 2025

### Purpose

Foster world-class regulatory practice for members across the whole regulatory system and all levels of government.

### Objectives

#### Collaborate

To solve common regulatory challenges

#### Grow

By cultivating our collective capability

#### Innovate

To address emerging regulatory challenges

### Strategic Priorities

#### Partners

Build and maintain working relationships with key domestic and international partners to benefit all AELERT members.

#### Members

Maximise value for regulatory practitioners and their agencies and enabling regulatory stewardship and capability building for all levels of government.

#### Products

Providing access to AELERT branded practical products, capability programs, network groups and events for all members.

### Key Strategic Risk Mitigations

AELERT will face key strategic risks unless we:

#### Deliver

Ensure AELERT products deliver enduring and realised benefits to member agencies

#### Relevant

Ensure AELERT's unique products align with member and member agency needs

#### Viable

Implement a sustainable funding model to support and grow network

#### Niche

A unique network for practitioners and their agencies 'run by regulators for regulators'

### Deliverables/Activities

- 1 Secure AELERT's viability through securing ongoing placement and funding of AELERT resources.
- 2 Enable and empower AELERT's various communities of practices so that they operate as a network and inform AELERT's working groups to solve common problems and run cross functional and interjurisdictional initiatives.
- 3 Deliver enhanced AELERT's existing agency and practitioner products and build new tools including the Modern Regulator Improvement Tool (MRIT), Regulatory Officer Capability Framework and Self-Assessment Tool, Interagency Twinning program and Practitioner Mentoring and Job Swap programs.
- 4 Enable AELERT members to effectively engage with AELERT's domestic and international partners to grow collective capabilities, regulatory performance and maturity.
